

My journey began with a deep empathy for human-centered design and accessibility. Evolving from Visual Design into a holistic UX/UI Product Designer — shaping end-to-end experiences. Managing multiple design systems for various platforms (mobile & web). Transforming complexity into simplicity through creativity, AI innovations, and strategic design thinking, while ensuring the result is visually appealing, highly functional, accessible, and meets both user needs and business objectives (B2B and B2C).

EXPERIENCE

- MBA AI | Research | AI Experience Product Design**
Rutgers University / IxDF Instructional eLearning / Start-ups

| 03/2024 - Today
- Sr UX UI Designer 'Game of Thrones'**
Warner Bros Discovery

| 08/2022 - 10/2023
- Sr UX/UI Product Designer**
eLearning - Hatch Early Child Education

| 04/2022 - 07/2022
- UX/UI Product Designer**
BlackBerry Cyber Security

| 01/2017 - 10/2021
- UX Research | UI Design | Visual Designer - Contract**
Compass Group Studio [Mayo Clinic, TJX, Companies, Toronto Zoo]
Scotia Bank

| 01/2016 - 12/2016
- Interactive Digital Designer**
2D Illustrator | 3D Design
Design Agency
Media & TV | Events & Exhibitions | eCommerce & Retail

| 2010 - 2014

EDUCATION

- 

B.DESIGN
3D MODELING & INTERIOR
ARCHITECTURE
- 

MA HUMAN - INTERACTION
DESIGN
London Middlesex University

COURSES & TRAINING

LEADERSHIP

- AI-UX Management,
Design & Product Leadership
- IxDF - Interaction Design Foundation

PRODUCT & BUSINESS COURSES:

- Cyber Security
 - Data-Driven Product Research &
Design Thinking
 - Product Management for AI
- Udemy

ART DESIGN & ARCHITECTURE

- Design Thinking for UX Design Leaders
- Research & System Thinking for
Product Design
- Human Interaction, Consumer Behavior
Social Psychology
- Philosophy, History of Art Design &
Architecture
- Narrative, Cinema and Game Set Design

TECHNICAL COURSES:

- HTML/CSS, Markdown, CMS
- Animation, Video and Effects
- 3D Design Modeling & Rendering

MDX University

VOLUNTEERING

- Co-Leader IxDF Jersey City**
IxDF Organization, NJ, US
- Art Teacher Assistant**
K-8 GRTW Academy, NJ, US
- Photography & Videography**
Tamarak Camp, NJ, US
- Instructional Designer**
UX/UI Course Development.
Sheridon College, ON, CA
- Professor Assistant**
Teaching Design Tools
London Middlesex University
London, UK

EXPERIENCE DESCRIPTION

MBA AI | Research | AI Experience Product Design Rutgers University / IxDF Instructional eLearning / Start-ups

| 03/2024 - Today

- **Rutgers University** - studying AI & how innovations can bring people closer together - bridging the physical and digital worlds in meaningful ways. Exploring the latest design trends & emerging technologies in Product Design & Human-Computer Interaction (HCI & IxD), conversational design & adaptive interfaces with AI-driven experiences & the technical foundations as essential building blocks.
- **IxDF Instructional Design | Visual Communication & Design Thinking** - Create instructional content on visual communication, guiding creativity, design thinking processes, case studies, design systems, typography & color theory for students at various stages of their creative journey from diverse backgrounds and varying levels of expertise.
- **Design Consulting** - Collaborate with an early-stage startup to support hands-on Visual, UX Design & Research, contributing to product design from ideation to execution. Considering AI-driven workflows, and adaptive interfaces that optimize user interactions.

| 08/2022 - 10/2023

Sr UX UI Designer - Game of Thrones Warner Bros Discovery

- **Collaborate with cross-functional team members** - including Product Managers, Researchers, Content Strategists, and Engineers, to gather requirements, facilitate workshops, and lead design sprints. Conducted competitor research and analyzed user behavior to identify visual & usability challenges, resulting in clearer navigation paths and improved visual cohesion.
- **Applying human-centered design implementation** to deliver intuitive functionality and develop a unified Design System. Created reusable components to ensure brand consistency and a seamless experience across the product ecosystem, increasing design efficiency and reducing inconsistencies.
- Produced user flows, information architecture, wireframes, mockups, and prototypes that streamlined complex interactions, making key features easier to discover and use. Design user-friendly and visually appealing features and components that contribute to the product's improvement.
- **Document core functionality and guidelines recommendations** in Figma, Miro & Confluence for team reference. Establishing a shared visual language and improving collaboration across design, development, and content teams.
- **Support the Engineering team** test and refine implemented designs, ensuring WCAG-compliant accessibility & delivering a consistent user experience across devices. Coordinated between teams to bridge communication gaps, enabling faster decision-making & collaboration.
- **Participate in user testing sessions** to gather insights and leverage user feedback to enhance the design, integrating customer feedback into refinements that increase engagement and satisfaction
- **Project Management** - partner with Managers & Stakeholders to review project requests, and monitor design workload & progress. Balancing priorities across multiple initiatives to develop plans & action items for all design-related initiatives to ensure timely delivery and quality. Identify potential conflicts or challenges, & adjust workflows to maintain efficiency.

Sr UX/UI Product Designer eLearning - Hatch Early Child Education

| 04/2022 - 07/2022

- Supporting the ongoing evolution and merger of multiple e-learning products into one Brand. Evolving design language and creating a Brand Identity & enhancing the user experience across all products to help create friendly interactions and intuitive experiences.
- Maintaining design system components to ensure consistency. Support discussions with engineering to ensure a common understanding of the outcomes. Sharing feedback and design recommendations to help create friendly interactions and intuitive experiences.

Sr UX/UI Product Designer BlackBerry Cyber Security

| 01/2017 - 10/2021

- **Multichannel Collaboration** - Worked across different channels in the company: designing for IoT, Cybersecurity, Privacy, Productivity, & Gamification. Delivering secure, user-centered experiences that balanced business goals with technical constraints, backed by usability research and stakeholder alignment, ensuring solutions met both security standards and user expectations.
- **Human-Centered Design** - Applied holistic considerations for usability and accessibility & created intuitive solutions that simplified complex security data, optimized workflows, and empowered users.
- **Cross-Platform Experience** - Designed for responsive web and mobile (iOS/Android), ensuring a cohesive, trusted experience across devices, platforms & customer-facing applications.
- **Design System** - Led the creation of a unified Design System across all products, defining accessibility and visual guidelines for both dark and light modes. Conducted research and case studies to address dark/light theme usability challenges, ensuring visual clarity & transparency in sensitive data displays. Ensuring a consistent & delightful user experience while considering platform-specific design guidelines & maintaining a unified brand identity.
- **Data Visualization & UX Artifacts** - Produced complete UX deliverables, including information architecture, user flows, wireframes & UI components. Design engaging iconography, informative infographics & data visualizations to simplify complex cybersecurity metrics into clear visuals. Consider tailored onboarding experiences for first-time users, with a helpful tool-tip system and empty-state visualization, improving trust in product adoption.
- **Brand Guidelines** - provided occasional support to the Brand team by contributing to product design guidelines and company branding materials.
- **Conceptual Prototyping** - Collaborated with the innovation team to generate conceptual prototypes for new features and products.
- **Supported the Engineering team** to ensure effective implementation of designs & accessibility requirements.
- **Mentorship and Guidance** by clarifying design challenges, providing feedback, and fostering accessibility best practices while promoting ethical design principles across projects

EXPERIENCE DESCRIPTION

UX Research | UI Design | Visual Designer - Contract

| 01/2016 - 12/2016

Compass Group Studio [Mayo Clinic, TJX, Companies, Toronto Zoo]
Scotia Bank

Working part of the Universal Lab team- supporting Scotiabank's mobile App. Designing wireframes and interactive prototypes for a facing iPad application that redefines the future of banking for self-service. Using research-informed information, architecture & interaction patterns to simplify complex workflows with a focus on product growth, customer registration, account management & subscriptions.

Collaborate with business team members to define requirements and establish user goals, objectives, and success metrics to ensure product success. Design user-centered experiences through usability research and design thinking for mobile, tablet, web, and kiosk platforms. Include journey maps, personas, wireframes, UI elements, illustrations, iconography, and interactive kiosks.

Occasionally assisting with video and sound editing for promos. Collaboration with engineering teams to understand the technical constraints. With exposure to Agile methodologies.

Interactive Digital Designer

2D Illustrator | 3D Design

| 2010 - 2014

Design Agency

Media & TV | Events & Exhibitions | eCommerce & Retail

- Contributed as a designer within a Design Agency, Photography, and Exhibition Studio, working with international clients across Europe and North America.
- Involved in projects across all areas of communications: Print, Web, Online, 3D & 2D graphics. Creating well-rounded designs that match everybody's high standards - both clients and internal stakeholders.
- Collaborating closely with cross-functional teams—including copywriters, photographers, creative directors, developers, and producers. Finding creative solutions for designs that communicated with the target audience and the brand's guidelines.
- Create digital assets such as web pages, banners, newsletters, icons, & interactive graphics that strengthen brand presence and engage users globally. Integrate localization and cultural adaptation, with designs published in 22+ languages.
- Extended contributions beyond design into video production and motion graphics, assisting producers with editing, effects, set design, and visual storytelling for broadcast and exhibitions

Achievements: Contributed to the design of an exhibition for Outsmart Telecom Corporation that was selected through a public competition and showcased at the 3GSM Mobile World Congress in Barcelona, raising the client's international profile and demonstrating the studio's creative leadership.
